

# VINCI wins a civil engineering contract for the new wastewater treatment facility in Nice

TREATMENT CAPACITY

**680,000**

population  
equivalent

**15,000**

tonnes of CO<sub>2</sub>

AVOIDED EACH YEAR  
BY 2030

**85%**

OF THE TOTAL VOLUME  
OF DEMOLITION WORK  
USED AS BACKFILL

**26**

MUNICIPALITIES  
AFFECTED

A PROJECT WORTH  
A TOTAL OF:

**€700M**

## Benefits:

→ Accelerate the ecological transition of the Nice Côte d'Azur Metropolitan Area by recovering biomethane, dried sludge and treated water.

→ Contribute to the region's energy independence by producing four times more energy than it currently consumes.
