## **PRESS RELEASE**

### **VINCI WINS €280 MILLION CONTRACT TO BUILD MOTORWAY IN HUNGARY**

VINCI has won the contract to build a section of the M7 highway from Budapest to Slovenia, over the 15 kilometres between the cities of Zamardi and Balatonszarszo.

The contract, worth 280 million euros, involves the building of three viaducts including one which is 1 768 metres long. The work will be done by Hidépitő, a subsidiary of VINCI Construction in Hungary.

The project will run for two years, with work starting in June.

In the present context, with the expansion of the European Union, the contract shows just how dynamic VINCI is in central and eastern European countries where 2003 sales figures for the Group amounted to approximately one billion euros, an increase of 15% on the previous year.
