VINCI becomes the largest shareholder in Mexican airport operator OMA

- It has finalised the acquisition of 29.99 % of OMA’s share capital
- VINCI Airports is now the largest shareholder in OMA, which will operate 13 airports in Mexico until 2048
- VINCI Airports has cemented its position as the world’s leading private operator in its sector

VINCI Airports has finalised the acquisition of Fintech’s 29.99% stake in OMA (Grupo Aeroportuario del Centro Norte) for a total amount of US\$1.17 billion¹, thereby becoming the largest shareholder in this Mexican airport operator. The transaction follows the signature of an agreement with OMA’s former shareholder in July 2022.

With this stake in a company holding a concession that will mature in 25 years, VINCI Airports is moving into Mexico and, as OMA’s largest shareholder, it will contribute to operating 13 airports in a country with high growth potential:

- Monterrey international airport (the airport handles about half of OMA’s passenger traffic, and the city is Mexico’s industrial capital and second-largest metropolis);
- The airports at Chihuahua, Ciudad Juarez, Culiacan and Mazatlan;
- Regional and tourist airports on the Pacific coast and in the centre of the country (Acapulco, San Luis Potosí, Torreon, Zihuatanejo, Durango, Zacatecas, Tampico and Reynosa).

Passenger traffic at OMA airports has hovered above pre-health-crisis levels since last July. Overall, in the first 11 months of the year – during which the airports handled 21 million passengers and flights to and from 170 destinations –, traffic is at 99% of its 2019 level. VINCI Airports will maintain this momentum to address growing demand for domestic travel in the Americas’ third most populated country and for international travel, especially to and from the United States, by starting up direct flights between Monterrey and Los Angeles, Houston, Detroit and Austin.

VINCI Airports will also roll out its environmental action plan aimed at net zero emissions throughout its network by 2050.

This transaction has cemented VINCI Airports’ position as the world’s leading private operator in its sector² and solidified its operation in the Americas, where it is already active in the United States, Brazil, Chile, the Dominican Republic and Costa Rica.

About VINCI

VINCI is a global player in concessions, energy and construction businesses, employing more than 260,000 people in nearly 120 countries. We design, finance, build and operate infrastructure and facilities that help improve daily life and mobility for all. Because we believe in all-round performance, we are committed to operating in an environmentally, socially responsible and ethical manner. And because our projects are in the public interest, we consider that reaching out to all our stakeholders and engaging in dialogue with them is essential in the conduct of our business activities. Based on that approach, VINCI’s ambition is to create long-term value for its customers, shareholders, employees, partners and society in general. www.vinci.com

¹ The transaction involves the acquisition of SETA for US\$578.7 million and of Aerodrome for US\$240.8 million (net of Aerodrome’s pre-existing debt), which together hold 29.99% of OMA’s share capital.

² Following integration of the airports in Cabo Verde, VINCI Airports will operate more than 70 airports worldwide.
