A strategy focused on growing profitability

Optimise existing operations

- upgrade all business lines by focusing on the most profitable sectors
- leverage synergies
- stick to a strict risk management and selective order-taking policy
- anticipate structural adjustments, focusing on light-weight and responsive structures

Continue to grow VINCI in businesses offering strong potential for sustainable growth (concessions, services, energy-information)

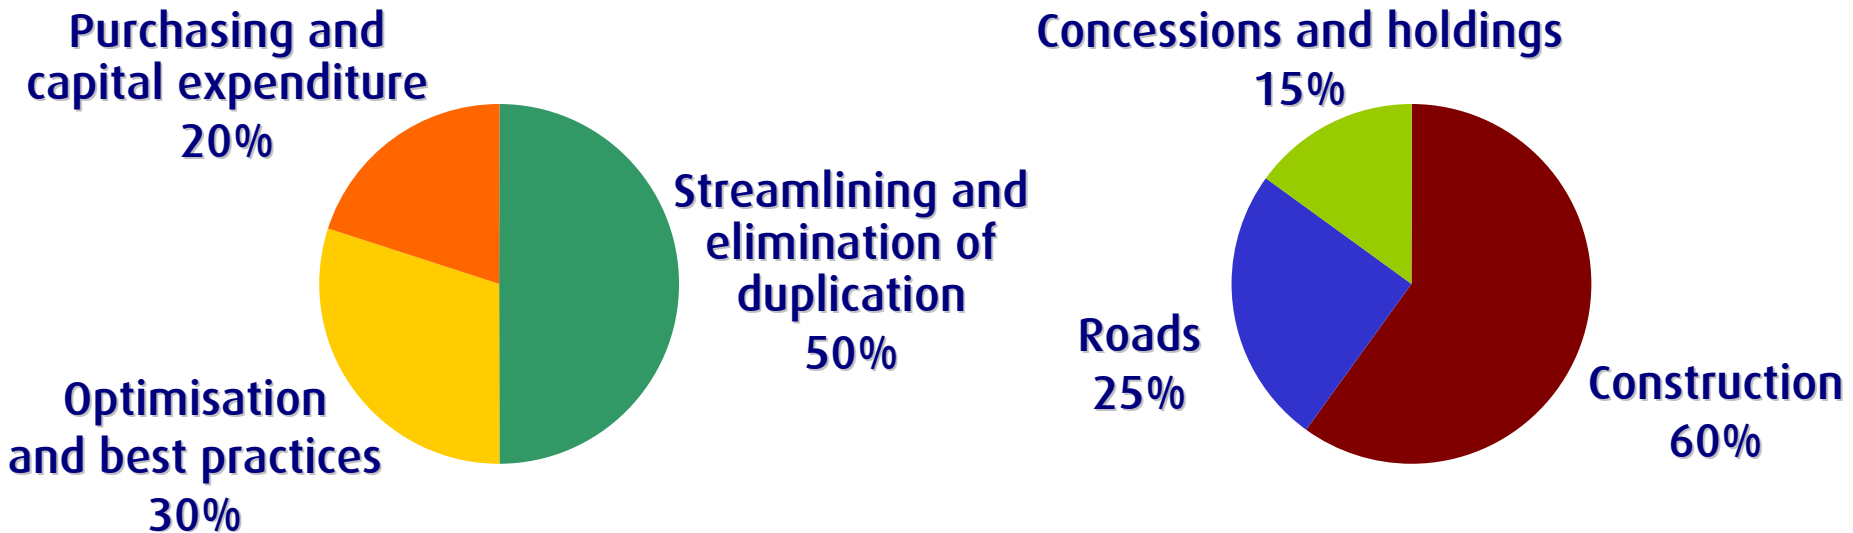

- organic growth
- targeted and rapidly earnings-enhancing acquisitions
- divestment of non-strategic business activities
- accelerate rebalancing of business mix

Greater than expected synergies

Initial target of 70 million euros revised upwards:

50 million euros in 2001

More than 100 million euros by 2003 (before tax)

Ensure sustainable development

- **Promote innovation and environmental friendly attitude**
 - innovation and R&D
 - quality and safety
 - environmental protection
- **Reinforce staff motivation**
 - increase variable part in salaries
 - incentives: stock options / employee savings plan
- **Increase transparency (corporate governance)**

- Operate for maximum value the existing portfolio of concessions
- Selective growth (airports and car parks)

- Action focus

- Car parks

- Launch of VINCI Park
 - Focus on new services and private customers in France
 - Growth in other countries

- Airports

- Acquisition of concessions (medium sized airports)
 - Development of airport services
 - Partnership with ADP

- Bridges and tunnels

- Selective prospecting (Korea, UK, Canada...)
