Return on equity (ROE) is net income for the current period attributable to owners of the parent, divided by equity excluding non controlling interests at the previous year end

* The decrease in ROE in 2023 compared with 2022 is mainly due to the sharp increase of financial costs

The 6.5 km section, costing around 270 million euros, will link the A750 and A709 motorways, and will help to reduce traffic congestion in the city. It will be financed by additional tariff increases applied to the toll gates around this new infrastructure
