

# ITER: CIVIL ENGINEERING WORK ON THE TOKAMAK BUILDING COMPLETED

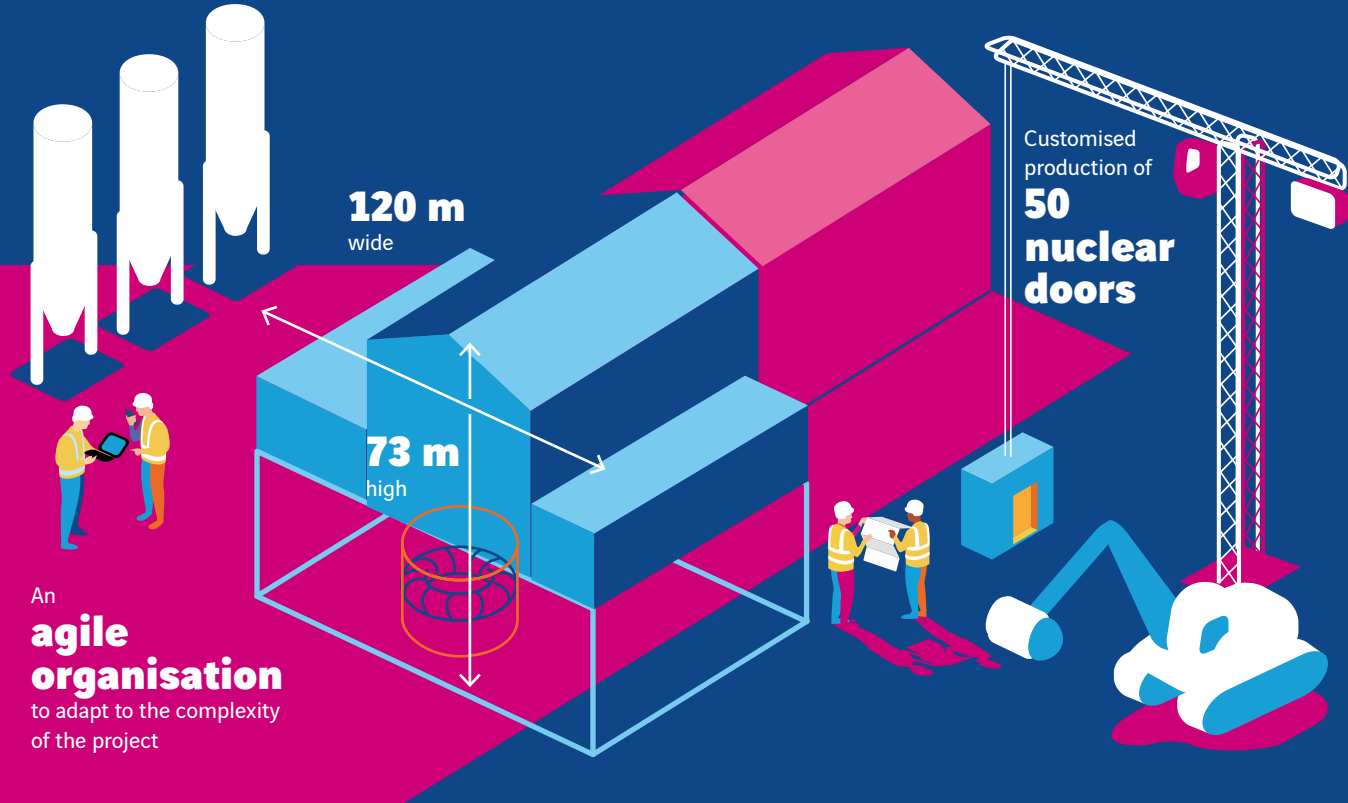

A partnership with  
**ITER Organization**  
and **Fusion for Energy**

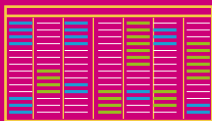

**3D** modeling  
**Specific**  
concrete formulations  
**Ultra-dense**  
steel reinforcement

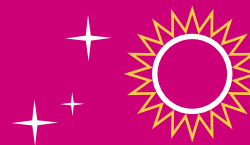

**850**  
people at the  
peak of activity

An  
**agile**  
**organisation**  
to adapt to the complexity  
of the project

**First experiments**  
**in 2025**  
objective maintained

Demonstrating the potential of fusion as a,  
**abundant, CO<sub>2</sub>-free**  
**alternative energy**
