Press release

VINCI named preferred bidder for the concession contract covering the Comarnic - Braşov section of the Bucharest - Braşov motorway in Romania

- **A 29-year concession contract**
- **A key Romanian development project**
- **A consortium comprising VINCI, STRABAG and AKTOR**

The Romanian Ministry of Transport and Infrastructure, represented by C.N.A.D.N.R. (Romanian National Company of Motorways and National Roads), has named the consortium comprising VINCI Concessions (37.5% - leader), STRABAG (37.5%) and AKTOR (25%) preferred bidder for a 29-year public private partnership contract covering the Comarnic - Braşov section of the Bucharest - Braşov motorway in Romania.

The project covers the financing, design, construction, operation and maintenance of a 54 km motorway section. The consortium will be remunerated via an annual fee paid by the concession grantor.

The A3 motorway, which crosses the Carpathian Mountains, is the main artery linking Bucharest and Transylvania with Hungary and Western Europe.

The work, to be carried out by a consortium made up of VINCI Construction Grands Projets (leader), VINCI Construction Terrassement, STRABAG and AKTOR, will include the construction of three major interchanges, 39 bridges and three dual-tube tunnels with a total length of 19.4 km.

The concession will be operated by a consortium made up of VINCI Concessions, STRABAG and AKTOR.
